At the time I sold my interest in Aerosol Research Co. to Mr. Goldberg, I assigned the patent rights. However I was the inventor of said spray head and not Mr. Goldberg. I feel there should be a correction of this particular statement.

Edward H. Green
NEWMAN-GREEN, INC.
Chicago

Aerosol Age was responsible for the error, and not Mr. Goldberg. Mr. Goldberg comments as follows:

It is certainly true that Mr. Green invented and received a patent on the No Klog removable spray head. However, in running your correction, the following information should also be published. While Mr. Green invented and patented the No Klog removable spray head, I was responsible for the original idea. Prior to my contacting Newman-Green, I had worked over a year with many other companies trying to perfect a removable spray head. Following Mr. Green's work in perfecting the device, our company, the Dyna Spray Corporation, contracted to take the entire output on an exclusive basis from Newman-Green Co.

Stanley J. Goldberg
AEROSOL RESEARCH CO.
Chicago
